ASHISH RAJAK

FULL STACK DEVELOPER

PROFILE

Results-driven Full Stack Developer with 2+ years of professional experience in designing, developing, and deploying scalable web applications. Skilled in frontend and backend technologies, database management, cloud integration, and CI/CD. Proven track record of building user-friendly, high-performance applications, collaborating with cross-functional teams, and optimizing system performance. Passionate about clean code, problem-solving, and delivering impactful digital solutions.

WORK EXPERIENCE

- Elderberry Tech** April 2024 – June 2025
Senior Full Stack Developer
 - Led the development of multiple scalable web applications using React.js, PHP, Node.js, and JavaScript.
 - Designed and optimized RESTful APIs and database schemas in MySQL & MongoDB for performance and scalability.
 - Integrated payment gateways, authentication systems, and third-party APIs to enhance product functionality.
- Alphawizz Private Limited** Dec 2023 – March 2024
Backend Developer Intern
 - Built backend modules using PHP & CodeIgniter, focusing on secure and efficient data flow.
 - Developed CRUD operations and integrated web apps with MySQL databases.
 - Collaborated with the frontend team to build seamless data-driven features.
- NCS Pvt Ltd** June 2023 – Sept 2023
React.js Developer Trainee
 - Learned and implemented state management (Redux) and component lifecycle methods in real-world projects.
 - Contributed to debugging and optimization of web applications.

PROJECTS

Anahee – E-commerce Application (Team Lead)

Tech: React.js, TypeScript, Node.js, MySQL, PhonePe, Shiprocket

- Developed a full-stack e-commerce platform with separate frontend, backend, and admin dashboard.
- Features: product catalog, cart, checkout, online payment (PhonePe), and automated shipping (Shiprocket).
- Led a team of 5 developers, assigning tasks, guiding architecture, and ensuring on-time delivery.

Elites Capital – Investment Management Platform

Tech: React.js, Redux Toolkit, CodeIgniter MySQL, Docker, CI/CD

- Developed a full-stack investment management application with role-based access (Super Admin, Admin, Customer).
- Customer: add investment, withdraw funds, and track transactions.
- Admin: review, approve, and manage customer payments and withdrawals.
- Super Admin: full access to system data, advanced controls for user and payment management.

Coffee Station Web App

Tech: CodeIgniter, MySQL, Firebase, JavaScript, HTML, CSS

- Role: Admin, Staff, User with real-time order updates via Firebase.
